MSD Notice of Construction Completion
LUDLOW RUN RELIEF SEWER
In City of Cincinnati, Hamilton County, Ohio

Cincinnati, March 28, 2006 - Managed by the Metropolitan Sewer District of Greater Cincinnati (MSD), the Fred A. Newmann Co. substantially completed the installation of the Ludlow Run Relief Sewer.

The project eliminates the overflow from one Combined Sewer Overflow (CSO) and reduces the overflow from three other CSO's, in compliance with the "Global Consent Decree." The project involved the installation of 8,014 feet of sanitary sewer and manholes at a cost of \$2,058,194. Construction occurred between Crawford Avenue and Groesbeck Road in the neighborhoods of Northside, Winton Place, and College Hill in the City of Cincinnati.

This project is part of MSD's ongoing Capital Improvement Program (CIP), which is focused on continually updating and improving the operation of MSD's wastewater collection and treatment systems.

Every day, the Metropolitan Sewer District of Greater Cincinnati (MSD) manages the effective collection and treatment of more than 200 million gallons of wastewater and actively maintains 3,000 miles of sanitary and combined sewers that run through the 49 municipalities and townships of Hamilton County. Owned by Hamilton County and operated by the City of Cincinnati, MSD is committed to continually maintaining and improving its wastewater collection and treatment systems for the betterment of both public and environmental health.
